Jun 27, 2010 (AFR Smart Investor - ABIX via COMTEX News Network) --

Silver Lake Resources and Catalpa Resources are fledgling Australian-listed miners with the potential to significantly lift output in coming years. A 300 per cent increase in output by 2011-12 is forecast by Silver Lake. A record \$A10.7 million net profit is forecast for 2009-10. Catalpa is entitled to buy Newcrest's 70 per cent holding in Queensland's Cracow gold mine. Production has begun ahead of schedule at its Edna May project in Western Australia.
